

STAGE STUNT GOGGLE DISCOUNT DEAL

SPONSORED BY THE NATIONAL SKI COUNCIL FEDERATION

Did you experience sticker shock the last time you had to purchase ski goggles? Well, you're not alone. The cost for a descent goggle can run \$100 or more. And that just gets you a standard run-of-the-mill lens. Looking for a premium lens? Expect to pony up \$200 and more.

Have you ever cracked or scuffed your lens and attempted to purchase a replacement? Depending on the brand of goggle you have, that task can quickly become a fool's errand.

LOOK AT THIS DEAL

The National Ski Council Federation has arranged with Stage for member Clubs/Councils to purchase Stunt PLUS Goggles at a 50% discount.

About the company

Stage is a Utah company created in 2011. Their Stunt goggles were developed and introduced a few years later and became an instant hit. They are a small company and not yet a mainstream name.

About the Stunt PLUS Goggle

Make no mistake; these are quality goggles with premium features like:

- ✓ Triple layer high-grade foam for excellent durability, comfort and perfect fit.
- ✓ Anti-slip adjustable straps are helmet compatible and replaceable.
- ✓ Replaceable distortion free Spherical lenses (some mirrored) help to prevent eye strain.
- ✓ Interchangeable lenses have dual pane design.
- ✓ Fusion permanent anti-fog treatment helps keep lens clear.
- ✓ Large selection of lenses to cover a wide range of lighting conditions (VLT 18% - 83%*).
- ✓ Full width lens provides wide field of view.
- ✓ At least UV400 protection on all lenses (some lenses have full spectrum UVA/UVB protection).
- ✓ A 30-day lens exchange guarantee in case you don't like the lens that came with your goggle.
- ✓ Spare lenses come with a microfiber lens bag for protection and cleaning.

* VLT (Visible Light Transmission) is the amount of light that reaches your eye expressed as a percentage. The lower the VLT percentage the darker the lens tint. Lenses with a high VLT percentage are best used in low light conditions.

About the Discount Deal

Pittsburgh Ski Club will order custom goggles for all interested members. There is no limit to how many goggles a member may order for personal use or to give as gifts to other members **(NO RESELLERS PLEASE – CLUB MEMBERS ONLY)**. PSC must submit a minimum order of 20 goggles. We don't anticipate any problems making the minimum order.

The standard Stunt PLUS goggle with Dark Smoke lens and adjustable strap retails for \$59.99 on Stage's website. Through this deal you can purchase the same goggle for just \$30.

The Stunt PLUS goggle with Detector Lens and adjustable strap retails for \$69.99 on Stage's website. Through this deal you can purchase this upgraded goggle for just \$33.00 (a mere \$3 upcharge over the standard base goggle).

For an even better deal, consider purchasing the standard Stunt PLUS goggle with Dark Smoke lens PLUS an extra Detector lens (their most popular lens) for \$40.00. That's right, you get the \$30 goggle deal PLUS an extra premium lens for a small \$10 upcharge.

Ordering your goggle(s):

1. Choose a frame. Frames come in three sizes – small, large and youth. Also, we would like to limit the frame colors to Black and White. Other colors are available; but may be subject to minimum quantities and upcharges. You can see all the available colors on their website at: <https://www.stageideas.com/pages/custom-stunt>. A frame sizing chart is available at: <https://www.stageideas.com/pages/sizing-chart>. If you absolutely must have one of the other colors, send John Schaukowitch an email using the website contact form at <http://www.pittsburghskiclub.org/contact/?index=1>.
2. Choose one or more lenses. See the lens tables below. Fifteen lenses are available for the large frame, nine for the small frame and six for the youth frame. Note that the dark and light smoke lenses and the clear lens have a \$0.00 upgrade cost. If you choose any of those three lenses, your goggle cost will be \$30. All other lenses have an upgrade cost. Extra lenses may be ordered with your goggle at the "Additional Lens Cost" shown in the table below. Extra lenses come with a microfiber bag. Stage has two webpages that explain the performance of each lens at <https://www.stageideas.com/pages/lenses> and <https://www.stageideas.com/pages/stage-lens-guarantee>. Disregard the prices. They are full retail.
3. Choose the color of your custom strap, which will be custom co-branded with Stage's name and logo and the Pittsburgh Ski Club name and logo. Straps come in black and white ONLY. See example images below. Final artwork may change slightly from what is shown. The custom strap is included in the price of the goggle.
4. Shipping is free; however, the requisite 7% sales tax must be added to all orders.

A sample black goggle with Dark Smoke lens has been ordered and will be available to view at future events. You may want to bring your helmet to see how well it works with the goggle.

Fill out the order form below and return it to John Schaukowitch before December 15, 2017.
