JOHNNY ANGEL & the HALOS not only perform the music of the fifties, sixties and seventies but have performed with many of the greats from that time period. In 1995 the HALOS released their first solo CD..." Jeet, Jet?,,,No, dju?" "They are non-stop action, with such a high energy level"... ' They are having as much fun as the audience, maybe even more". "They are dancers, singers, musicians, no, they are true entertainers"... "They make oldies new again. It's like yesterdays' songs with today's drive"... "They hold the crowds' attention, from the teeny boppers to the senior citizens." When you experience an evening with the HALOS, you will become a part of the fabulous fifties, the soulful sixties, the unpredictable seventies and see parities of the Blues Brothers and Rock n' Roll Hall-of-famers and much, much more. The HALOS trace the street corner, a-cappella scene, the great dance crazes, the familiar sing-along songs you all remember and entertain you whether you are a dancing fanatic or wish to sit back and watch the shows.
