Immerse yourself in the wonder of the holidays during a mile-long journey of awe-inspiring light experiences. Dazzling Nights is a night time walking experience through a large, natural environment that includes steps at certain points. Highlights of this year's experience are... Journey through a field of 2,000 illuminated flowers, dancing with light; bask in the warmth of a fiery glow from dozens of hand-made Moroccan Lanterns hanging from the treetops; immerse yourself in a tunnel of giant stars; capture photos with friends and family in front of a 30 foot stained glass tree; hop over a walkway of interactive lights that illuminate when you step on them; and take in an awe-inspiring light show around the Lotus Pond, featuring 100 beacons of light, 10 feet tall, dancing to music. And the evening wouldn't be complete without snow and holiday treats and so much more!
