New for 2015-16 ski season, Park City Mountain and Canyons are connected, creating the largest ski resort in the United States. Canyons' staggering 4,000 acres has been joined to Park City Mountain Resort via the new Quicksilver Gondola, and together the two areas offer 7,300 acres of world-class terrain. This is great news for skiers and boarders looking for a vast terrain experience. Canyons Village and Park City Mountain's close locale accommodate everyone's off-mountain interests, from world-class dining, shopping, live music and a vibrant bar and nightclub scene. Park City is renowned for its nightlife, but the après-ski scene in Canyons' base village is not to be missed either. Renovations have transformed the base area, specifically the Ski Beach area, into a popular après-ski hang out—especially on sunny afternoons.
